

# TERRITORY

an open-air school

# TERRITORY, AN OPEN-AIR SCHOOL

**It is a project of AREA Parks, specifically for schools.**

AREA Parks is an organ of Regione Lombardia that networks Lombardy Parks and Reserves to favour exchange of experiences between different realities (mountain, plain, city, river, lakes parks, ...)

# TERRITORY, AN OPEN-AIR SCHOOL

**A specific logo has been created to identify the Project**

**TERRIT<sup>o</sup>RI<sup>o</sup>**  
**UNA SCUOLA A CIELO APERTO**

# TERRITORY, AN OPEN-AIR SCHOOL

The activities included in the Project are designed to get school classes out into the territory.

The Park's proposals are included in the booklet that is prepared each year.

# TERRITORY, AN OPEN-AIR SCHOOL

A contest is linked to this Project, in which participating school classes can win a voucher to spend on an excursion to one of the Lombard Parks.

Two years ago one of the winning schools took part in one of our activities.

# YOUTH AT THE TOP 2024

**Also this year the Park joined AlParc's "Youth on the Summit" initiative.**

Two proposals were organized.

The first one, with the youth of the Albosaggia summer center at the "Baita del Sciuch" at the Zocche Lake: the participating youth, accompanied by a Medium Mountain Accompanist, experienced the night in a self-managed refuge, the conquest of the summit of Pizzo Meriggio and talked about bees and pollinators with an expert beekeeper.

# YOUTH AT THE TOP 2024

The second one, saw children from the Colorina Summer Camp stay at the “Bar Bianco” mountain hut, conquering the Rosetta Peak and learn interesting information about pollinators of the alpine pastures.
